

# When to go to the Emergency Department

*Go to the nearest ED for these and other emergencies:*

**Difficulty breathing or shortness of breath when doing very little or resting.**

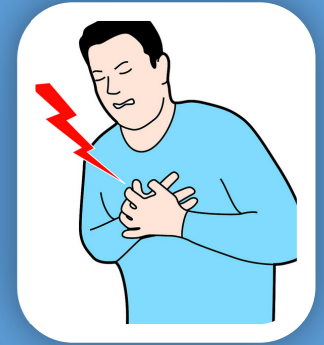

**Severe stomach pain.**

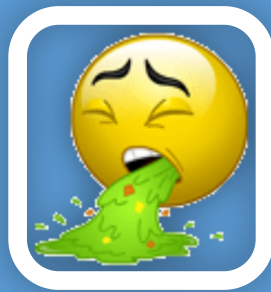

**Seizures or convulsions**

**Confusion or disorientation**

**Chest pain or tightness in the chest**

**Continuous vomiting or severe diarrhea with signs of dehydration such as dry tongue, dry mouth, decreased peeing (no urine for the past 6-8 hours), or very yellow/orange dark urine.**

**Stiff neck and sensitivity to light.**

**A broken bone or a wound that may need stitches**

**Your infant, under three months of age, has a fever over 38.5C or 101F or has a fever and it is difficult to wake her/him.**
