Appointment Day

Please bring the following with you:

- ✓ Health card
- ✓ List of current medications
- ✓ Please bring your routine home medications which will be required during your clinic visit
- ✓ You may bring one support person to stay during your treatment
- ✓ Lunch is not provided so bring a bagged lunch and drink if coming for a lengthy stay (This is especially important for Diabetics)

Expected length of stay

Short Treatments

Treatments such as Phlebotomies and IV antibiotics can range from 30 minutes to 1 hour

Long Treatments

Treatments, such as IVIG, transfusions and iron infusions, can range from 4- 8 hours.

Prior to appointment:

For Blood Product Transfusion

(i.e. blood, platelets):

- Type and screen must be done 48 - 96 hours prior to transfusion

For Therapeutic Phlebotomy

- Blood work arranged by your physician or nurse practitioner must be completed 2 weeks prior to procedure
- Eat breakfast and drink extra fluids the morning of procedure

Please arrange your own transportation to and from your appointment

QHC is a reduced scent environment.

Please refrain from wearing scented products to the hospital.
