

Sills entrance and procedure for dropping off and picking up patients:

There is no stopping or parking allowed at the main entrance of BGH. People can stop in front of the Charlotte Sills Wing building if they are dropping off or picking up a patient, but must not leave a car unattended. There must be a driver that can move the car immediately if required.

There is a phone in the Sills lobby so that anyone arriving to pick up a patient from Day Surgery can call down and let the team know they are at the entrance; a porter will then bring the patient to the door. However, if the person chooses to go to the Day Surgery area themselves then they need to park in the parking lot, bring the patient to the lobby and then go get their car.

Should someone stop at either entrance for an excessive amount of time or leave their car parked unattended at the front of Sills or the Main Entrance they may be ticketed and towed, as the signs currently inform. The area along the front of the building is a fire lane and we should keep in mind that the fire department can also ticket here and their fines can be up to \$10,000.
